

Medical Affairs **RSS**

Dear Friends and Colleagues,

As more professionals work remotely and conferences, trainings, etc. are cancelled in response to the spread of COVID-19, we want to do our part to help everyone to stay connected and productive.

This is why the RSS Medical Affairs team has launched the "Stay Connected Initiative" which will start with a scientific education webinar series on key Roche Sequencing related topics and provide opportunity to connect, learn and engage.

These live scientific education webinars will be available to everyone through "BrightTALK" and start April 16th, 2020. Please see the schedule below for more details. You can sign up for the webinars on the BrightTALK website <https://www.brighttalk.com/> or via clicking on the links next to the respective session below.

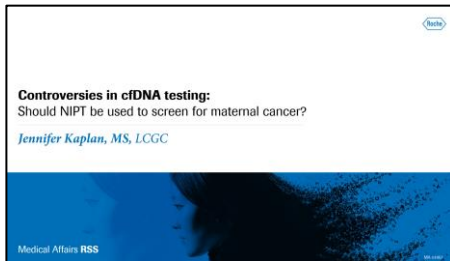

My team and I believe we will make it through these extraordinary times together by supporting each other, thinking creatively, and staying connected. Until "normal" returns, we hope that you, your family & friends remain in good health.

Best regards,

Maximilian Schmid, MD
Head of Medical Affairs
Roche Sequencing

RSS Medical Affairs Stay Connected Initiative Webinars @ BrightTALK:

Sign up for the webinars on the BrightTALK website <https://www.brighttalk.com/> or via clicking on the links next to the respective session below. You will need to create an account to sign up for the BrightTALK presentations.

Controversies in cell-free DNA testing: Should NIPT be used to screen for maternal cancer?
